

Post Office. Postmaster will direct letters to Kingston Post Office, N. Y.

The afternoon edition of THE FREEMAN can be found at the following places: At the office of Mr. D. Van Wagoner, where our agents can be found at any time. All business of the paper will be attended to there at the General office.

LOCAL INTELLIGENCE.

CITY NOTES.

The owner of the shawl advertised as lost may obtain the same by applying at this office.

High water at Rondout Light House today at 7 A. M. and 7:30 P. M.

One man in the lower part of the city on Friday had forty protested notes on his hands.

Wash clothes hung on the lines in the lower part of the city on Monday from 10 to 11 A. M.

Ice in all the puddles and ponds and along the creek this morning, and boys are looking up their last winter's skates.

McEntee & Dillon's foundry team attracted considerable attention on Garden street on Monday forenoon.

Yesterday 45 canal boats laden with 5,670 tons of coal reached tide water at Eddyville through the Delaware & Hudson canal.

Monday morning brought the first snow flakes seen in this city this season and the air was really wintry.

Wm. H. McElroy was the lucky drawer in Division street was followed down by a crowd of cheering hoodlums on Monday afternoon.

The Superintendent of the Almshouse anticipates an unusually heavy demand upon him this winter. A great many people will be poor this year who never were before.

The city authorities have acted unwisely in putting off payment of bills. These are the times when everybody who can pay should do so promptly, and the City of Kingston can raise money.

A Tribune reporter was in town on Monday for the purpose of interviewing the cement manufacturers of this region in regard to the present condition and prospects of their business.

The bill-boards in the lower part of the city are brilliant with the colored posters of the coming "Mirror of Ireland" and Prof. Harry Ball and Signor Brignini's gift entertainment.

A. M. Low, the champion upturn boot and shoe dealer, gives notice in another column of important reductions in the price of those articles. Low is a wide-awake man, and always catches the first note of the market.

Carefully compiled statistics go to prove that if there were no red-headed boys there would be far less a burden to school masters, and the earth a quieter and more peaceful abode. The inclination to prod a pin into a red-headed boy is something sternly irresistible and the red-headed boy's prompt pugnacity always resists.

Isaac Merseau, one of the Freeman staff-boys, made his reappearance at the office Tuesday for the first time since a three weeks' bout with bilious fever. He is a very lean and slipped pantalon now, but is delighted to be out again and will soon be in his usual frisky spirits. He enjoys the reputation of having been the best printer's devil ever in Rondout.

Elisha C. Litchfield has been adjudged a bankrupt. Liabilities are unknown, as Mr. Litchfield has been sick and unable to prepare a list.

The Court of Appeals will re-convene in Albany to-day, Tuesday. The following is the day calendar for that day: Nos. 284, 65, 72, 77, 73, 74, 75 and 78.

Moisture Weather. Sunday night and Monday morning there was breezy weather in and about the regions of Shandaken. The wind blew a hurricane, and snow squalls followed close on each other, making the mountains white with snow.

For Memphis. On Tuesday of last week, election day, the sum of nineteen dollars and seventy odd cents was contributed for the Memphis sufferers by the voters in the Sixth Ward of this city. The money is in the care of Mr. George F. Stephan, one of the Inspectors of Election, how to send it not having been determined. Why not send it to the Mayor?

A Discouraged Lawyer. A Beaverkill lawyer who has been trying hard to make a fortune out of a farm up there, that, in the language of an old settler, "contains two stones to a dirt" has made up his mind the business is too hard for him. He will remove to the upper part of the city and there practice his profession, that will be a deal softer than the stone business.

Frank Wink's Gun. The original gun Wink Wink shot those 250 pigeons with can be seen in Elmendorf's store at Brooks' Crossing. This gun is of somewhat antique form, with a lock of peculiar pattern, supposed to have been invented by some member of the Wink family who flourished some time during the past century. It is said this lock alone is good for at least twenty-five pigeons.

Postal Cards. It is remarkable that the sale of postal cards has diminished to about fifty per cent. of what it was two months ago. This is a powerful illustration of what a little animal man is, and with what a gusto he betakes himself to new things, and ceases to remain constant to them when novelty has lost its charms. A regular mail-order card was first introduced, but the postmaster is no longer very seriously troubled with fresh orders for new ones on Washington.

Orange County Butter. The superiority of Orange county butter was an acknowledged fact 100 years ago, but was seen from the following advertisement, which appeared in Zenger's New York Weekly Journal, of Nov. 4, 1773. As excellent connoisseurs of butter were in this city, these gentlemen were then put to the test in the following manner: To be sold by Peter Lynch, near the Rutgers' Brewhouse, very good Orange Butter. It is excellent for Gentlemen to comb up their hair with. It also cures children's sore heads.

A Coming Musical Event. Captain H. M. Bauscher, who served so gallantly during the war in the 156th Regiment and who is now the principal of the New Palis Academy, will, on the 21st of the present month, give in Music Hall in this city an instrumental and vocal concert, the music of which will be of the highest order, both classic and modern. Prof. Krause, who played at the last musical convention in this city, is the pianist, Ernest Schiever violinist and Prof. Werner Violoncello. An excellent soprano will be another of the attractions. Captain Bauscher has given several excellent concerts of this description, and no doubt our music-loving residents will embrace the opportunity to see and hear our city's hearing really artistic musicians.

ALONG THE RIVER.

The Boston & Albany railroad have decided not to allow their employees any longer double time for Sundays and night work.

A number of masons were discharged from the new Capitol Saturday evening. A number of laborers were also discharged.

The verdict in the case of Capt. Carcross, found dead in a room at the Delaware House, is to the effect that deceased took the poison through mistake.

When the steamer Sunayada arrived at her dock in Troy on Friday morning hung inside the wheel-house. Captain Teson said the boat met some anchor ice on the way up the Hudson.

Meredith Read, formerly of Albany, at present counsel general at Paris, has been promoted to be minister resident to Greece, vice J. M. Francis of Troy, resigned.

The new coal docks of the Boston & Albany railroad at East Albany, on which are piled 5,000 tons of coal, gave away Saturday and gradually sank in the river. One hundred and twenty-five men are now engaged removing the coal from the wreck.

On Monday the men employed at the West Point Foundry will commence work on three-quarter time. Elias Brown & Co.'s Comb Works at Wappingers Falls have ceased running, in order that repairs may be made to the buildings, and a new steam engine placed there.

"Butter" Kelley, who lives at 144 Fourth street, Troy, at 11 o'clock Thursday night stabbed his wife in the left shoulder, because she became impatient enough to ask a physician for the cure of her ailment. Kelley was found on a bed covered with blood. A physician was summoned and found that the wound was ugly, but not dangerous.

On and after Monday, November 10th, the evening passenger train going north, and the morning freight train going south, on the Dutchess & Columbia Division of the New York, Boston, & Montreal Railway will be discontinued north of Pine Plains. They will run between Dutchess Junction and Pine Plains upon the same time as at present.

Last Thursday a surprise party was held at the house of one of the first families at Wappingers Falls. During the progress of the son of the house and his friends came to Poughkeepsie with a Wappingers Falls belle and got married. The happy couple returned to the surprise party and announced the situation, when they were ordered off the premises. The next day, however, the mother of the young man sent him a note of reconciliation, and only "all's well" with them. He was "only nineteen years old."

The Mediator having left after being fitted out with machinery in Newburgh her place is now taken at the foot of Washington Street by the Vincitor, another of the same class of ships, owned by the same parties, and which will be "engineered" by Ward, Stannard & Co. The Vincitor arrived yesterday and work will proceed at once upon her. We hear it stated that the Mediator arrived in New York the other day at three P. M., making the run between this and the former city in about six hours, or ten miles per hour.

On Wednesday last at Cold Spring considerable interest was excited by the announcement that an enormous cannon was to be cast at the foundry, which would require thirty-three tons of molten iron for the rough casting, and which would weigh 400 lbs. when finished. The cannon was to be cast by the foundry, and the rough casting was to be done by the foundry.

Queer Announcements.

The following is a copy of a notice posted in the loafers' waiting-room in the lower office of the Delaware & Hudson Canal Company on the dock in this city: "Professor Jack Sullivan with his trained Billy Goats at North Rondout, Sunday, Nov. 16th, 3-1-2 P. M. Music by O'Farly's Melodion Band. Admission Free at the door. While a reporter was copying the notice he observed a lot of men seated on benches around a particularly hot stove inquire, 'What the devil is he writing that down for?' To which a brawny chap, about as black as coal dust as His Satanic Majesty is commonly believed to be, remarked, 'he's going to put it in the Freeman bazaar, and has a title to do that same, for hasn't Jack Sullivan a herd of fifty fine goats in North Rondout beyond?'

A friend sends us a copy of the Monmouth Inquirer, published at Freehold, N. J., containing an account of the recent great fire there, by which a large portion of the business part of the town was destroyed, the loss aggregating \$150,000. Among the buildings destroyed were the court house, jail, Sheriff's, Clerk's and Surrogate's offices, the post office and the Inquirer establishment, only a small part of the contents of the latter being saved. The paper seems to be peculiarly unfortunate, this being the second time it has been burned out. May it pluckily persevere to prosperity.

Among the buildings destroyed were the court house, jail, Sheriff's, Clerk's and Surrogate's offices, the post office and the Inquirer establishment, only a small part of the contents of the latter being saved. The paper seems to be peculiarly unfortunate, this being the second time it has been burned out. May it pluckily persevere to prosperity.

A friend sends us a copy of the Monmouth Inquirer, published at Freehold, N. J., containing an account of the recent great fire there, by which a large portion of the business part of the town was destroyed, the loss aggregating \$150,000. Among the buildings destroyed were the court house, jail, Sheriff's, Clerk's and Surrogate's offices, the post office and the Inquirer establishment, only a small part of the contents of the latter being saved. The paper seems to be peculiarly unfortunate, this being the second time it has been burned out. May it pluckily persevere to prosperity.

Correspondents will please direct their letters to Kingston, Ont., N. Y.

The up-town office of THE FREEMAN can be found on 2nd street, in the law office of Mr. D. Van Wagner, where our agents can be found at any time. All business of the paper will be attended to there or at the General Office.

LOCAL INTELLIGENCE.

CITY NOTES.

The owner of the shawl advertised as lost may obtain the same by applying at this office.

High-water at Rondout Light House today at 7 A. M. and 7:30 P. M.

One man in the lower part of the city on Friday had forty protested notes on his hands.

Wash clothes hung on the lines in the lower part of the city on Monday frosty.

Ice in all the puddles and ponds and along the creek this morning, and boys are looking up their last winter's skates.

McIntire & Dillon's foundry tandem team attracted considerable attention on Garden street on Monday forenoon.

Yesterday 45 canal boats laden with 5,670 tons of coal reached tide water at Eddyville through the Delaware & Hudson canal.

Monday morning brought the first snow flakes seen in this city this season and the air was really wintry.

Wm. H. McElroy was the lucky drawer of the principal prize at Prof. Ball's entertainment last evening. It was a handsome bedroom set.

A dead horse on Mr. George Schick's cart in Division street was followed down by a crowd of cheering hoodlums on Monday afternoon.

The Superintendent of the Almshouse anticipates an unusually heavy demand upon him this winter. A great many people will be poor this year who were before.

The city authorities have acted unwisely in putting off payment of bills. These are the times when everybody who can pay should do so promptly, and the City of Kingston can raise money.

A Tribune reporter was in town on Monday for the purpose of interviewing the cement manufacturers of this region in regard to the present condition and prospects of their business.

The bill-boards in the lower part of the city are brilliant with the colored posters of the coming "Mirror of Ireland" and Prof. Harry Ball and Signor Brignini's gift entertainment.

A. M. Low, the champion upturn boat and shoe dealer, gives notice in another column of important reductions in the price of those articles. Low is a wide-awake man, and always catches the first note of the market.

Carefully compiled statistics go to prove that if there were no red-headed boys in the world, the earth would be a more peaceful place. The inclination to pull a plug into a red-headed boy is something sternly irresistible and the red-headed boy's prompt pugnacity always replies.

Isaac Mercereau, one of the Freeman stand-bys, made his reappearance at the office on Tuesday for the first time since a three weeks' bout with bilious fever. He is a very lean and slipped pantalon now, but is delighted to be out again and will soon be in his usual frisky spirits. He enjoys the reputation of having been the best printer's devil ever in Rondout.

Bankruptcy Court.

Elisha C. Littlefield has been adjudged a bankrupt. Littlefield is unknown, as Mr. Littlefield has been sick and unable to prepare a list.

Court of Appeals.

The Court of Appeals will re-convene in Albany today, Tuesday. The following is the day calendar for that day: Nov. 28, 65, 72, 73, 74, 75 and 78.

Boisterous Weather.

Sunday night and Monday morning there was breezy weather in and about the regions of Shandaken. The wind blew a hurricane, and snow squalls followed close on each other, making the mountains white with snow.

For Memphis.

On Tuesday of last week, election day, the sum of nineteen dollars and seventy cents was contributed for the Memphis sufferers by the voters in the Sixth Ward of this city. The money is in the care of Mr. George F. Stephan, one of the Inspectors of Election, who to send it not having been determined. Why not send it to the Mayor?

A Discouraged Lawyer.

A Beaverkill lawyer who has been trying hard to make a fortune out of a farm up there, in the language of an old settler, "contains two stones to a dirt" has made up his mind the business is too hard for him. He will remove to the upper part of the State and there practice his profession, that will be a deal softer than the stone business.

Hank Winne's Gun.

The original gun Hank Winne shot those 250 pigeons with can be seen in Elmendorf's store at Brooks' Crossing. This gun is of somewhat antique form, with a lock of pistol pattern, supposed to have been invented by some member of the Winne family who flourished some time during the past century. It is said this lock alone is good for at least twenty-five pigeons.

Postal Cards.

The Albany Argus says: "It is remarkable that the sale of postal cards has diminished to about fifty per cent. of what it was two months ago. This is a powerful illustration of what a little animal man is, and with what gusto he betakes himself to new things, and ceases to remain constant to them when novelty has lost its charms. A regular mail seized upon the public when these little postal cards were first introduced, but the postmaster is no longer very seriously troubled with fresh orders for new ones on Washington."

Orange County Butter.

The superiority of Orange county butter was an acknowledged fact 100 years ago, as will be seen from the following advertisement, which appeared in Zenger's New York Weekly Journal, of Nov. 4, 1773. As will be seen it was then put to use of which we in these degenerate days know nothing:

To be sold by Peter Lynch, near der Rutgers' Brewhouse, very good Orange Butter. It is excellent for the children to comb up their hair with. It also cures children's sore heads.

A Coming Musical Event.

Captain H. M. Bauscher, who served so gallantly during the war in the 156th Regiment and who is now the principal of the New Palz Academy, will on the 21st of the present month, give in Music Hall in this city an instrumental and vocal concert, of music which will be of the highest order, both classic and modern. Prof. Krause, who played at the last musical convention in this city, is the pianist. Ernest Schiever violinist and Prof. Werner violoncello. An excellent soprano will be another of the attractions. Captain Bauscher has given several excellent concerts of this description in New Palz, where they were greatly enjoyed, and no doubt our music-loving residents will embrace the opportunity so rare in our city of hearing really artistic musicians.

ALONG THE RIVER.

The Boston & Albany railroad have decided not to allow their employees any longer double time for Sundays and night work.

A number of masons were discharged from the new Capitol Saturday evening. A number of laborers were also discharged.

The verdict in the case of Capt. Carnaross, found dead in a room at the Delavan House, is to the effect that deceased took the poison through mistake.

When the steamer Sunda arrived at her dock in Troy on Friday longlines hung inside the wheel-house. Captain Teson said the boat must have anchored on the way up the Hudson.

Meredith Reed, formerly of Albany, at present consular general at Paris, has been promoted to be minister resident to Greece, vice J. M. Francis of Troy, resigned.

The new docks of the Boston & Albany railroad at East Albany, which are piled almost 5,000 tons of coal, gave away Saturday and gradually sank in the river. One hundred and twenty-five men are now engaged removing the coal from the wreck.

On Monday the men employed at the West Point Foundry will continue to work on three-quarter time. Elias Brown & Co.'s Comb Works at Wappingers Falls have ceased running, in order that repairs may be made to the buildings, and a new steam engine placed there.

"Butter" Kelley, who lives at 141 Fourth street, Troy, at 11 o'clock Thursday night stabbed his wife in the left shoulder, because she became impatient enough to ask for a portion of his month's wages. Mrs. Kelley was found on a bed covered with blood. A physician was summoned and found that the wound was ugly, but not dangerous.

On and after Monday, November 10th, the Western passenger train, going north, will be made up of the following cars: one Pullman, one freight train going south, on the Dutchess & Columbia Division of the New York, Boston, & Montreal Railway will be discontinued north of Pine Plains. They will run between Dutchess Junction and Pine Plains upon the same time as at present.

Last Thursday a surprise party was held at the house of one of the first families at Wappingers Falls. During the progress of the party the host and hostess came to Poughkeepsie with a Wappingers Falls belle and got married. The happy couple returned to the surprise party and announced the situation, when they were ordered off the premises. The next day, however, the mother of the young man sent him a note of reconciliation, and now "all's well" with them. He was "only nineteen years old."

The mediator having left after being fitted out with machinery to Newburgh he placed is now at the foot of Washington Street by the Victrola, another of the same class of ships, owned by the same parties, and which will be "engineered" by Ward, Stanton & Co. The Victrola arrived yesterday and work will proceed at once upon her. We hear it stated that the Mediator arrived in New York the other day at three P. M., making the run between this and the former city in about six hours, or ten miles per hour.

On Wednesday last at Cold Spring considerable quantities of coal were being cast at the foundry, which would require thirty-three tons of molten iron for the rough casting, and which was to weigh 60,420 lbs. when finished. A number of scientific gentlemen and interested spectators were gathered to witness the work, but unfortunately, when about half of the metal was safely conducted to the mould the weight and height of the column burst the box, and the entire contents escaped. The mould destroyed, the whole of the molten metal had to be drawn from the furnaces and cast in the sand, that it might be re-heated for another trial. The loss is variously estimated, some placing it as high as \$5,000.

Newburgh T. E. Church Fire. Fire was discovered issuing from the cupola of the Second M. E. Church building, corner of High street and Western avenue, soon after ten o'clock on Saturday evening. Although Washington steamer had streams on it almost before the alarm was sounded, the flames were so subdued before the cupola was destroyed and other damage to the building occasioned—the latter principally from water—involving a loss of \$8,000. The origin of the fire is unknown. It broke out in a small closet or enclosed passage-way, leading to the cupola, to which no one is known to have had access for some days. The flames were so subdued before the cupola was destroyed and other damage to the building occasioned—the latter principally from water—involving a loss of \$8,000. The origin of the fire is unknown. It broke out in a small closet or enclosed passage-way, leading to the cupola, to which no one is known to have had access for some days. The flames were so subdued before the cupola was destroyed and other damage to the building occasioned—the latter principally from water—involving a loss of \$8,000. The origin of the fire is unknown. It broke out in a small closet or enclosed passage-way, leading to the cupola, to which no one is known to have had access for some days. The flames were so subdued before the cupola was destroyed and other damage to the building occasioned—the latter principally from water—involving a loss of \$8,000. VINEGAR BITTERS.
ESTABLISHED IN 1844
TWO LARGE
Hardware Stores
Kingston and Ellenville
ULSTER COUNTY, N. Y.

VINEGAR BITTERS.
Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California. The medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" The answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a general purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs in Bilious Diseases.

VINEGAR BITTERS.
The properties of Dr. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-irritant Sudorific, Alterative, and Bilegic.

VINEGAR BITTERS.
Successful Thousands proclaim VINEGAR BITTERS the most wonderful invigorant that ever sustained the sinking system.

VINEGAR BITTERS.
No Person can take these Bitters according to directions and not remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

VINEGAR BITTERS.
Bilious, Remittent and Intermittent Fevers, which are so prevalent in our valleys and on our prairies, especially those of the United States, Ohio, Missouri, Illinois, Tennessee, Kansas, Rio Grande, Pearl, Alabama, Mobile, Savannah, Rome, Georgia, and many others, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

VINEGAR BITTERS.
Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

VINEGAR BITTERS.
Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Spasms, Rheumatism, Stomachic Disturbance, Bloating of the Stomach, Back Pain in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

VINEGAR BITTERS.
Scurful, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Gout, Rheumatism, Dropsy, Inflammation, Mercurial Affections, Old Sores, Eruptions of the Skin, Scars, Etc., Etc., are in all other constitutional diseases, are the offspring of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

VINEGAR BITTERS.
For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Dropsy of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

VINEGAR BITTERS.
Mechanical Diseases.—Persons engaged in Painting and Miners, such as Plumbers, Typographers, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

VINEGAR BITTERS.
For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blisters, Spots, Pimples, Scald-head, Sore Throat, Erysipelas, etc., etc., are in all other constitutional diseases, are the offspring of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

VINEGAR BITTERS.
For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the decline of life, WALKER'S Bitters display so decided an influence that improvement is soon perceptible.

VINEGAR BITTERS.
Cleanse the vitiated blood when ever it is infiltrated through the skin in Pimples, Eruptions, etc., etc., and when you find it obstructed and sluggish in the veins; cleanse it when it is found in the blood, and the health of the system will follow.

VINEGAR BITTERS.
Druggists and Gen. Agts. San Francisco, California and Gen. of Washington and Charleston, S. C. Sold by all Druggists and Dealers.

VINEGAR BITTERS.
There is no one article known that will do so much for the skin and to it as well as Sapolio. Try it.

VINEGAR BITTERS.
HAND SAPHOLIO is a new and wonderfully effective Toilet Soap, having no equal in this country or abroad.

VINEGAR BITTERS.
HAND SAPHOLIO is an article for the Bath, "reaches the foundation" of all dirt, opens the pores, gives healthy action and brilliant tint to the skin.

VINEGAR BITTERS.
HAND SAPHOLIO is without a rival in the world for curing or preventing roughness and chapping of either hands or face.

VINEGAR BITTERS.
HAND SAPHOLIO removes Tar, Pitch, Iron or Ink Stains and Grease; for workers in Machine Shops, Mines, etc., is invaluable. For making the Skin White and Soft, and giving it a "rosy bloom," it is unsurpassed by any cosmetic known.

VINEGAR BITTERS.
HAND SAPHOLIO costs 10 to 15 cents per box, and everybody should have it. You will like it.

VINEGAR BITTERS.
DON'T fail to try these GOODS.

VINEGAR BITTERS.
Buy it of your merchant if he has it; or write for it from our office. If not, then write for our Sample, "All about Sapolio," and it will be mailed free.

VINEGAR BITTERS.
ENOCH MORGAN'S SONS, 30 PARK PLACE, N. Y.

VINEGAR BITTERS.
Diseases of the Kidneys.

VINEGAR BITTERS.
Painful affections of the bladder and urinary organs, gravely deposit, irritation of the neck of the bladder, with difficulty of holding the urine, in stricture, seminal weakness, and in all conditions accompanied by debility.

VINEGAR BITTERS.
JULIEN'S HYDRANTIC COMPOUND will be found a most efficacious remedy. Send for circulars to B. KEITH & Co., 41 Liberty St., N. Y. Sold by Druggists. 10 per bottle, or 6 for \$1.
